SUMMARY

I am a 25 year old passionate game developer with over 8 years of professional experience, having worked on multiple released titles across various game engines such as Unity, Cocos Creator, Unreal Engine and proprietary engines.

My love for games began at the age of 2 when I got my first NES console, and since then, I've been on a lifelong journey of learning—from art, modeling and 2D animation to visual effects and, ultimately, programming, which became my true calling.

I am committed to constantly learning, evolving, and honing my skills to create impactful and engaging games together.

EXPERIENCE

04/2024 - 06/2024

Ho Chi Minh City, Vietnam

Senior Technical Artist

Sparx* - a Virtuos Studio

Working closely with Artist on AAA projects to produce real time or prebaked cutscenes.

- Helping Artist creating DLC realtime cutscene using proprietary engine

07/2023 - 04/2024

Ho Chi Minh City, Vietnam

Lead Game Developer

INDI GAMES

Experienced game developer with a track record of implementing cutting-edge technologies and workflows to drive project success. Adept at introducing new methodologies such as Scrum, Test Driven Development (TDD), ported Gameplay Ability System to Unity and SOLID principles while mentoring team members to enhance their skills. Known for proactively resolving blockers and continuously researching innovative solutions to improve development processes.

- Led a team of 8 members to develop a turn-based NFT x Dragon Quest game, orchestrating the integration of multiple complex systems including quests, skills, characters, and networking functionalities.
- Directed a team of 3-4 members in the creation of a live services 3D action RPG game, blending elements from Fatal Frame and other successful titles.
- Delivered a compelling gaming experience reminiscent of <https://store.steampowered.com/app/2604580/>.
- Spearheaded the creation of a custom keyboard for an NFT app, demonstrating versatility and adaptability in cross-platform development.

07/2022 - 07/2023

Ho Chi Minh City, Vietnam

Senior Game Developer

INDI GAMES

Gameplay developer using Unity.

- Mugen Horror Action (Midcore): <https://youtu.be/3E0u2mPp75U>
- Live Breeder (Midcore): <https://youtu.be/fgG2nH-brOE>
- Puyo Pino: <https://youtu.be/zqPbSSS-oSk?feature=shared>

03/2021 - 06/2022

Ho Chi Minh City, Vietnam

Senior Game Developer

Mecury Studio

Company Description

- Game Development using Cocos Creator and Node JS
- Solutions with Typescript/Javascript (ES5)

11/2019 - 12/2020

Ho Chi Minh City, Vietnam

Co-Founder

S.T.A.R. Maths Online

One notable project in my portfolio is Starmaths Online, where I played a key role in co-founding and developing a real-time online educational game platform.

- Co-founding and developing multi-platform real-time online games for educational purposes.
- Proficient in utilizing TypeScript and the Cocos Creator game engine.
- Crafted immersive and interactive gaming experiences across Android, iOS, and web platforms.
- Leveraged advanced networking technologies such as WebSocket and Socket IO.
- Created engaging educational games that facilitate learning in a dynamic and interactive manner.
- Contributed to the creation of a multi-platform game that provides an interactive learning experience for students.
- Focused on the frontend development aspect, instrumental in bringing the vision of the project to life.
- Demonstrated commitment to transparency and collaboration by sharing work on platforms like GitLab.
- Played a vital role in developing the frontend client to display and interact with the educational content.
